

## **Code of Ethics to Check Malpractices and Plagiarism in Research**

Thassim Beevi Abdul Kader College for Women is committed to promote and maintain high standards of honesty and accountability in the conduct of academic research and is keen to implant and endorse the culture of honesty and transparency in all research activities.

Ethics and plagiarism are the significant components in research and publication. Sometimes it is to be observed that researchers claim others work as their own, which will degrade the reputation of the individual/institution. There is every need to assess the academic/research work of the student/researcher scholar/ researcher who produce their work in the form of Project reports, Seminar papers, Research papers, Research proposals and thesis work. Especially the research work in the form of papers/projects should go through the process of plagiarism and has to maintain high academic and production standards. The research work produced would be thoroughly assessed for their viability across the globe and needs to reach the highest success.

The official policy is an emphatic commitment to best practices in research chiding away malpractice of any sort. Further our commitment to Anti-plagiarism is 100%. UGCINFLIBNET assisted URKUND plagiarism check-tool is made available to all research faculty and their research scholars to vet research documents connected with research, PG project works, M.Phil dissertations, Ph.D thesis and manuscripts to journals. Every Research Scholar of the institute pursuing degree has to check his/her final project report using URKUND before submission. <http://www.orkund.com/en/about-orkund>
